

The Santa Monica Bay Restoration Plan

Restoration Plan Database: Crystal Reports of Individual Plan Summaries

I. BASIC PLAN DATA

Plan name:

The Santa Monica Bay Restoration Plan

Brief description of plan:

The Santa Monica Bay Restoration Project (SMBRP) was initiated in 1989 to restore and protect its resources. The Bay Restoration Plan examines in depth the issues associated with these difficult questions. It explains the origins and current status of key problems and recommends practical, feasible actions to address them.

Region the plan is located within:

Pacific Region

Watershed(s) included within the plan:

P053x

Area plan covers (in square miles):

square miles

Plan scale:

County

Plan's lead organization(s):

Santa Monica Bay Restoration Project

Plan's Main Contact Information:

101 Centre Plaza Drive
Monterey Park, CA 91754
213-266-7516
213-266-7600

On-line version of plan:

Date of original plan:

9/1994

II. TECHNICAL INFORMATION

Plan includes restoration goals: Y

Level of detail of the goals:

G

Summary of the goals:

Restore, rehabilitate and protect the marine ecosystems, living resources and biodiversity of the Bay and its watersheds. Improve wetland quality, increase wetland quantity and ensure long term comprehensive management and protection. Ensure a healthy environment for the native plants and wildlife that are dependent upon these habitats as well as for the people who use these areas for recreation and education.

Plan recommends restoration of specific project sites:

Y

Plan includes a discussion of funding sources:

Y

Plan addresses long-term protection of restored sites:

N

Partners included in developing the plan:

Federal
State
Local
Business/Industry
Non-profit Organizations
Academia
Foundations

Type(s) of public outreach included during plan development:

Formed an advisory group(s)

Plan includes public outreach as part of plan implementation (e.g. annual public meeting, local group participation):

Y

Plan discusses the application of innovative approaches to restoration:

N

Plan make use of GIS mapping capabilities:

N

Plan addresses monitoring/reference sites for ecosystem level monitoring (baseline conditions) by:

G

Plan addresses monitoring/reference sites for project level monitoring by:

G

The plan discusses or coordinates with other restoration plans covering the same geographic area:

N

Other plan names:

Plan contains detailed information on historic and/or current habitat size, rate of loss, acres restored or protected, etc.):

Y

Summary of this habitat information:

Only 5% of historical wetland acreage remains today.
