

Elkhorn Slough Watershed Conservation Plan

Restoration Plan Database: Crystal Reports of Individual Plan Summaries

I. BASIC PLAN DATA

Plan name:

Elkhorn Slough Watershed Conservation Plan

Brief description of plan:

This conservation plan was developed to identify and address threats and to maintain the long term viability of Elkhorn Slough and its related upland communities as a significant coastal system. Key elements of the plan include sustained public and private efforts to secure funding for recommended programs, resource protection and abatement of major stresses.

Region the plan is located within:

Pacific Region

Watershed(s) included within the plan:

P080a

Area plan covers (in square miles):

square miles

Plan scale:

County

Plan's lead organization(s):

Elkhorn Slough Foundation, The Nature Conservancy

Plan's Main Contact Information:

No Information Provided

On-line version of plan:

Date of original plan:

7/1999

II. TECHNICAL INFORMATION

Plan includes restoration goals: Y

Level of detail of the goals:

G

Summary of the goals:

Restore and enhance natural habitats, where suitable, and reestablish ecological links.

Plan recommends restoration of specific project sites:

Y

Plan includes a discussion of funding sources:

Y

Plan addresses long-term protection of restored sites:

Y

Partners included in developing the plan:

State
Business/Industry
Non-profit Organizations
Foundations

Type(s) of public outreach included during plan development:

Information not available

Plan includes public outreach as part of plan implementation (e.g. annual public meeting, local group participation):

Y

Plan discusses the application of innovative approaches to restoration:

N

Plan make use of GIS mapping capabilities:

Y

Plan addresses monitoring/reference sites for ecosystem level monitoring (baseline conditions) by:

N

Plan addresses monitoring/reference sites for project level monitoring by:

N

The plan discusses or coordinates with other restoration plans covering the same geographic area:

Y

Other plan names:

Elkhorn Slough Watershed Project

Plan contains detailed information on historic and/or current habitat size, rate of loss, acres restored or protected, etc.):

Y

Summary of this habitat information:

Elkhorn Slough is one of a few areas where marshes still exist in California, where more than 75% of coastal marshes have been lost.
