

Puget Sound Water Quality Management Plan 2000 - public review draft

Restoration Plan Database: Crystal Reports of Individual Plan Summaries

I. BASIC PLAN DATA

Plan name:

Puget Sound Water Quality Management Plan 2000 - public review draft

Brief description of plan:

This plan is Washington State's long term strategy for protecting and restoring Puget Sound. This plan provides the framework for managing and protecting the Sound and coordinating the roles and responsibilities of federal, state, tribal, and local governments.

Region the plan is located within:

Pacific Region

Watershed(s) included within the plan:

P290w , P291x

Area plan covers (in square miles):

16,000.00 square miles

Plan scale:

State

Plan's lead organization(s):

Puget Sound Water Quality Action Team

Plan's Main Contact Information:

Puget Sound Water Quality Action Team
PO Box 40900
Olympia, WA 98504
360-407-7300

On-line version of plan:

www.psat.wa.gov/Publications/manplan00/mp_index.htm

Date of original plan:

9/2000

II. TECHNICAL INFORMATION

Plan includes restoration goals: Y

Level of detail of the goals:

G

Summary of the goals:

To preserve, restore, and enhance the ecological processes that create and maintain marine and freshwater habitats and to seek a net gain in ecological function and area of those habitats within the Puget Sound basin.

Plan recommends or uses criteria for selecting restoration sites (e.g. cost benefit ratio, ecological benefits):

Y

Summary of the criteria:

Ranking of all projects shall be based on probability of success taking into account the level of disturbance and proximity to other natural areas.

Plan recommends restoration of specific project sites:

N

Plan includes a discussion of funding sources:

Y

Plan addresses long-term protection of restored sites:

Y

Partners included in developing the plan:

Federal
State
Local
Tribes
Non-profit Organizations

Type(s) of public outreach included during plan development:

Was subject to a public comment period

Plan includes public outreach as part of plan implementation (e.g. annual public meeting, local group participation):

Y

Plan discusses the application of innovative approaches to restoration:

N

Plan make use of GIS mapping capabilities:

N

Plan addresses monitoring/reference sites for ecosystem level monitoring (baseline conditions) by:

G

Plan addresses monitoring/reference sites for project level monitoring by:

N

The plan discusses or coordinates with other restoration plans covering the same geographic area:

N

Other plan names:

Plan contains detailed information on historic and/or current habitat size, rate of loss, acres restored or protected, etc.):

Y

Summary of this habitat information:

1) Current habitat size: 16,000 square miles (80% land and 20% water) 2) An estimated 70% of tidally influenced wetlands in Puget Sound have been lost in the past century and 33% of marine shorelines have been modified.
